

Velvo

UX Scenario Document (File Version 4.3)

Submission Date: 2026 / __ / __

App Ver.: 1.0.0

App Developer: FTanBorn

E-mail address: (support e-mail)

Table of Contents

1. Basic Information
 2. Document History
 3. Page Description (how to read this document)
 4. Detailed Login Information
 5. Main Page Description (5-1 Start page · 5-2 Main page)
 6. Sub Page Description (flow chart, movie, series, player, live TV, search, settings)
 7. Paid Content
 8. In-App Ad
- Appendix: Notes for LG QA

1. Basic Information

Item	Information
App title	Velvo
App ID / version	io.github.ftanborn.velvo / 1.0.0
What it is	A media player for the user's own M3U playlist or Xstream Codes account. The app contains no channels, movies or series of its own.
Main feature	Choosing the audio and embedded subtitle language of the video being watched, with subtitle size, color and position settings.
Price / payment / ads	Free. No in-app purchases, no payment, no advertisements.
Accounts	No Velvo account. The user enters a playlist address; test playlist in section 4.
Interface languages	English and Turkish. "Automatic" follows the TV language; can be changed in Settings › Language and subtitles.
Remote controls	Magic Remote (pointer, OK, wheel) and the standard remote (arrows, OK, BACK, color and media keys).
Data	Playlist details, profiles and preferences are stored only on the TV. Privacy policy: https://ftanborn.github.io/velvo/privacy.html
Source code	https://github.com/FTanBorn/velvo (GPL-3.0)

2. Document History

No.	Sent	Version	File Name	Contents
1	__.__.2026	1.0.0	UX Scenario	Initial document

3. Page Description

Each page shows a screenshot of the app with numbered pink markers.

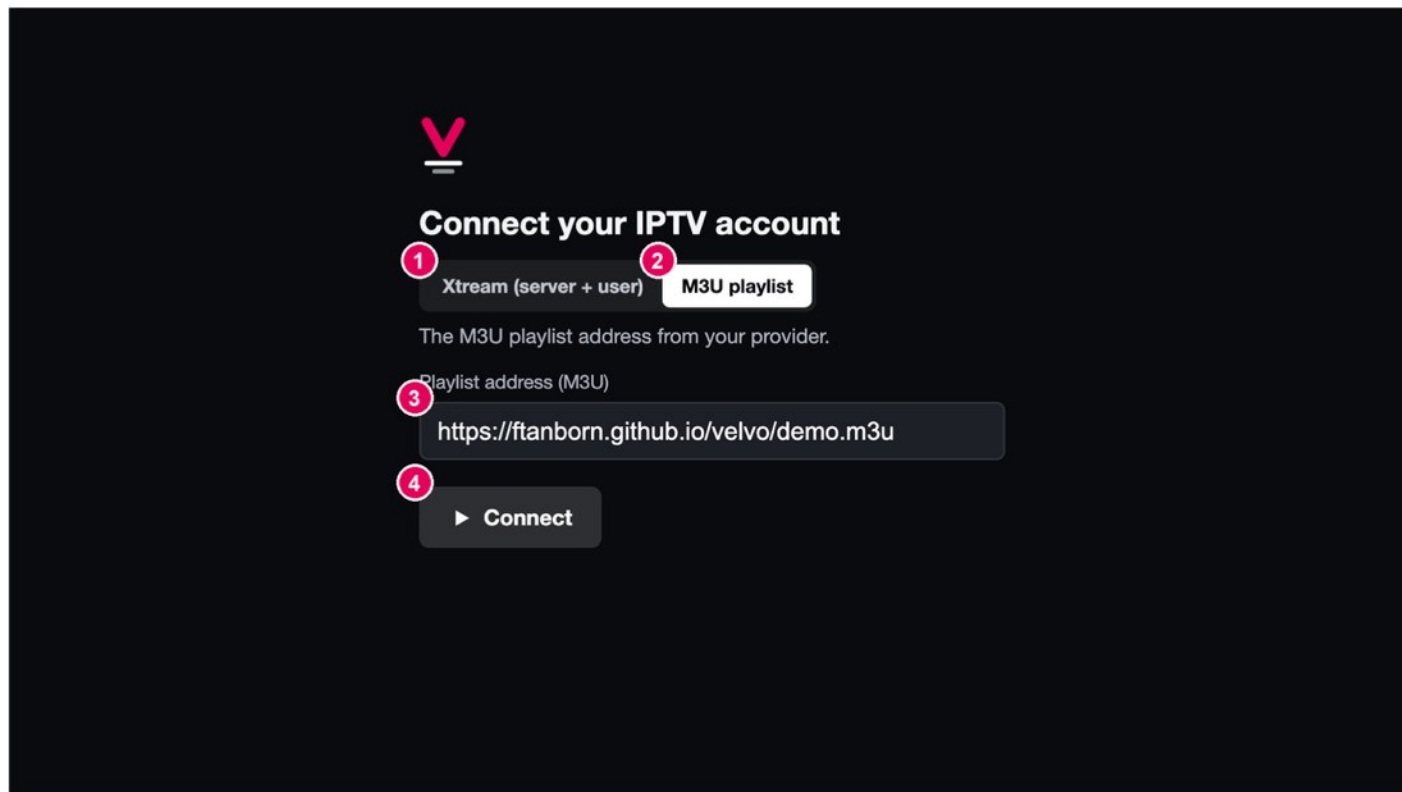

The table on the right describes the menu or UI button with the same number.

All screenshots were taken with the English interface and the demo playlist from section 4.

Every button can be used with the arrow keys + OK and with the Magic Remote pointer.

4. Detailed Login Information

Login page

No.	Description
1	Xtream: server address, username and password from the user's provider. Not needed for QA.
2	M3U playlist: select this for QA.
3	Playlist address: enter <code>https://ftanborn.github.io/velvo/demo.m3u</code> (LG virtual keyboard).
4	Connect: checks the playlist and opens the Main page.

Test Accounts (ID / PW): not required. Activation Codes: not required.

Test playlist (M3U): <https://ftanborn.github.io/velvo/demo.m3u>. It works on any number of devices and contains only openly licensed Blender Foundation films and public test streams.

The login page appears on first launch. The playlist stays saved after relaunch and TV reboot; Settings › IPTV account › Sign out removes it.

5. Main Page Description

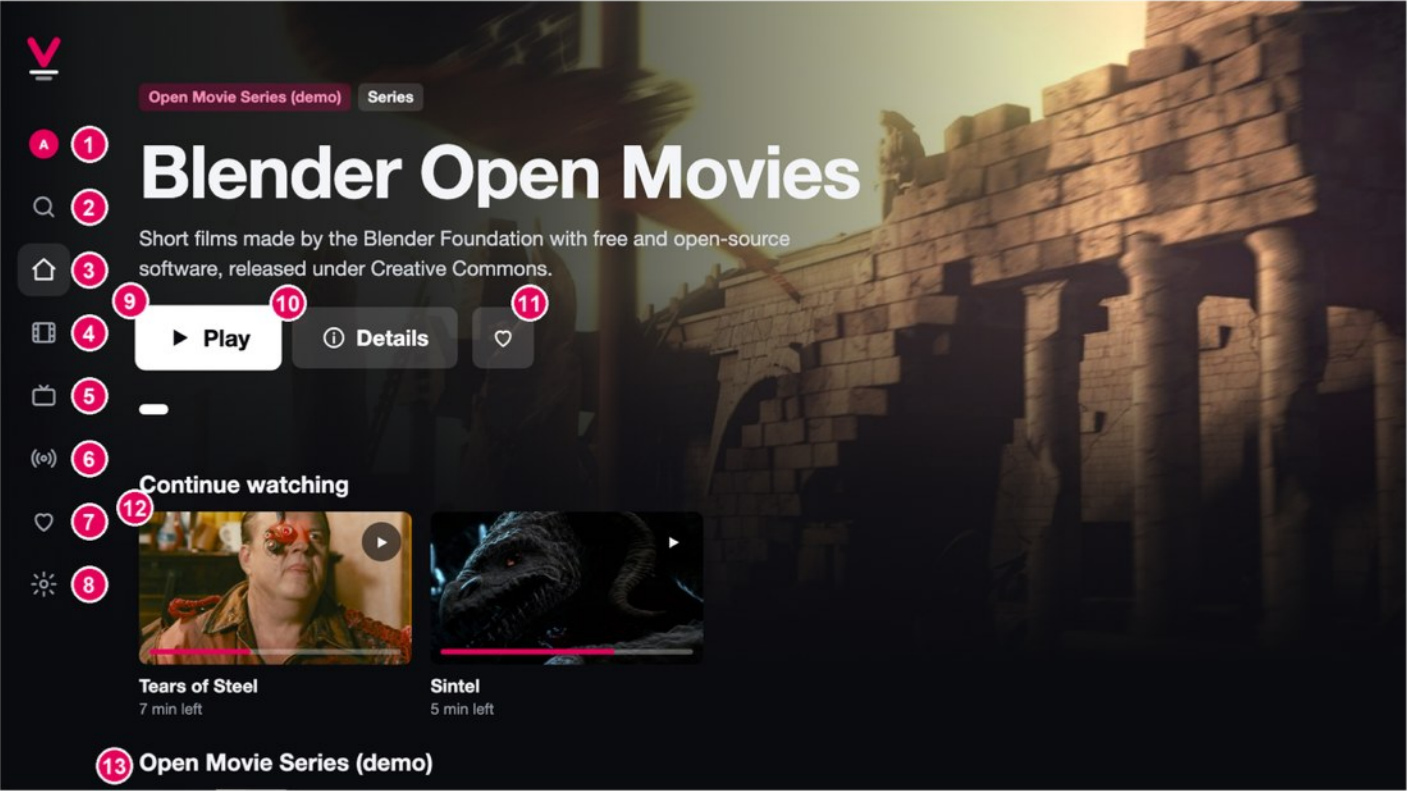

No.	Description
1	Profile: OK opens the Main page for this profile.
2	Add profile: enter a name with the on-screen keyboard and pick a color.
3	Manage profiles: rename, recolor or delete profiles.

This page appears at launch when the TV has more than one profile. With a single profile the app opens the Main page directly.

Each profile has its own language preferences, watch progress and My List.

5. Main Page Description

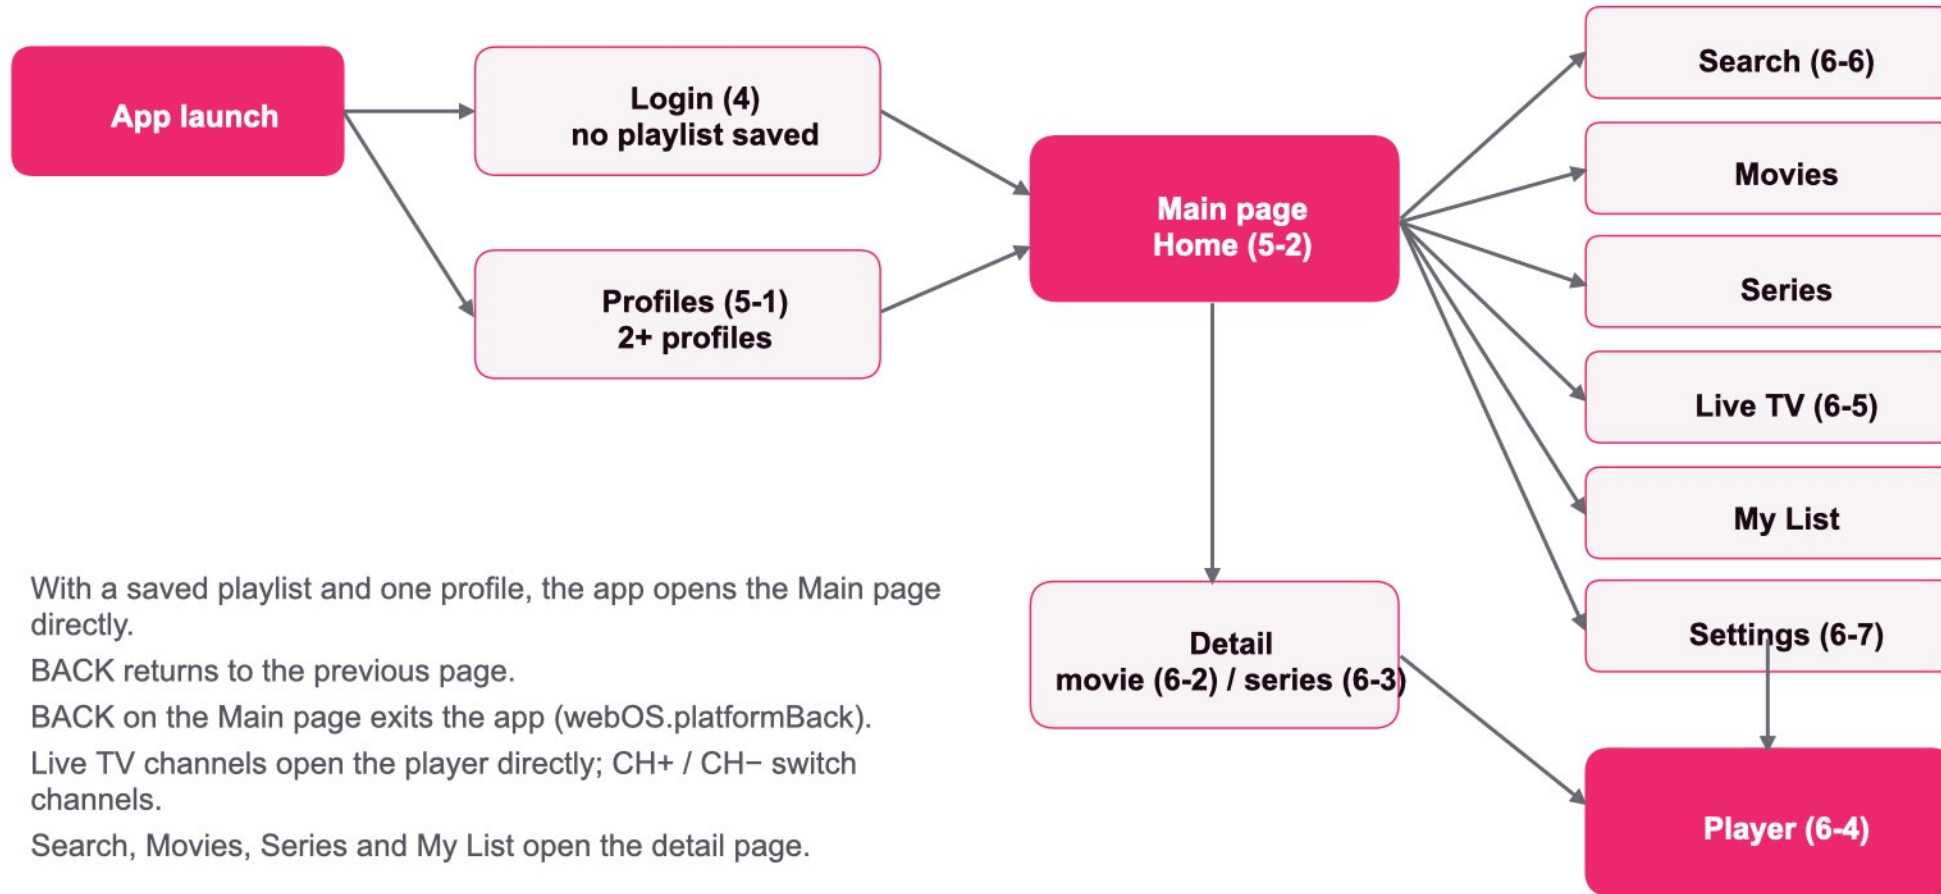

The menu on the left (1–8) is reachable from every page with ◀.
Titles open the detail page with OK.

No.	Description
1	Profile: switch to another profile.
2	Search
3	Home (this page)
4	Movies: categories and titles
5	Series: categories and titles
6	Live TV: categories and channels
7	My List: saved movies and series
8	Settings
9	Play: plays the featured title.
10	Details: opens the detail page.
11	Add to / remove from My List
12	Continue watching: resumes where the user stopped.
13	Content rows: one row per category; ▼ or the Magic Remote wheel scrolls down.

6. Sub Page Description

6-1 Flow chart

With a saved playlist and one profile, the app opens the Main page directly.

BACK returns to the previous page.

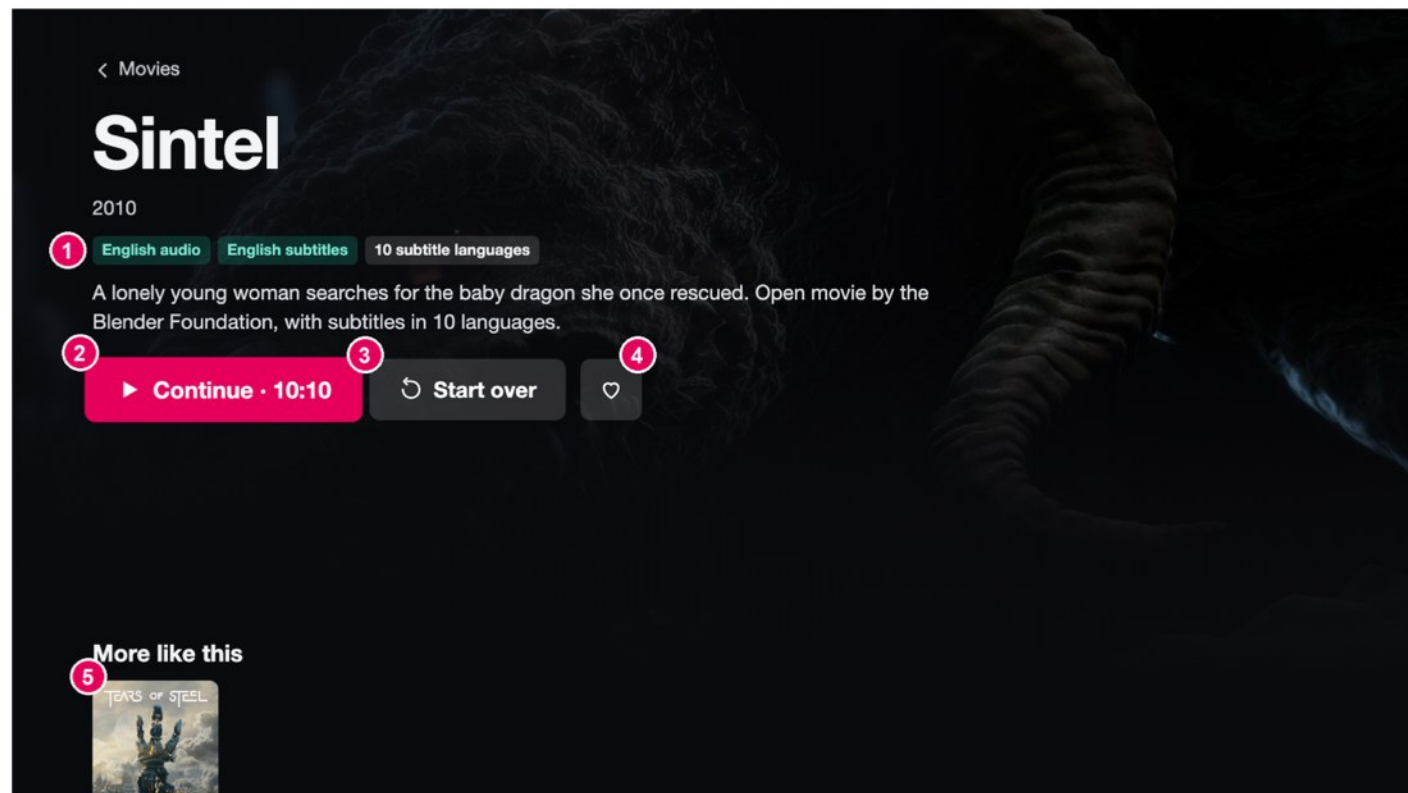

BACK on the Main page exits the app (webOS.platformBack).

Live TV channels open the player directly; CH+ / CH- switch channels.

Search, Movies, Series and My List open the detail page.

6. Sub Page Description

6-2 Movie detail

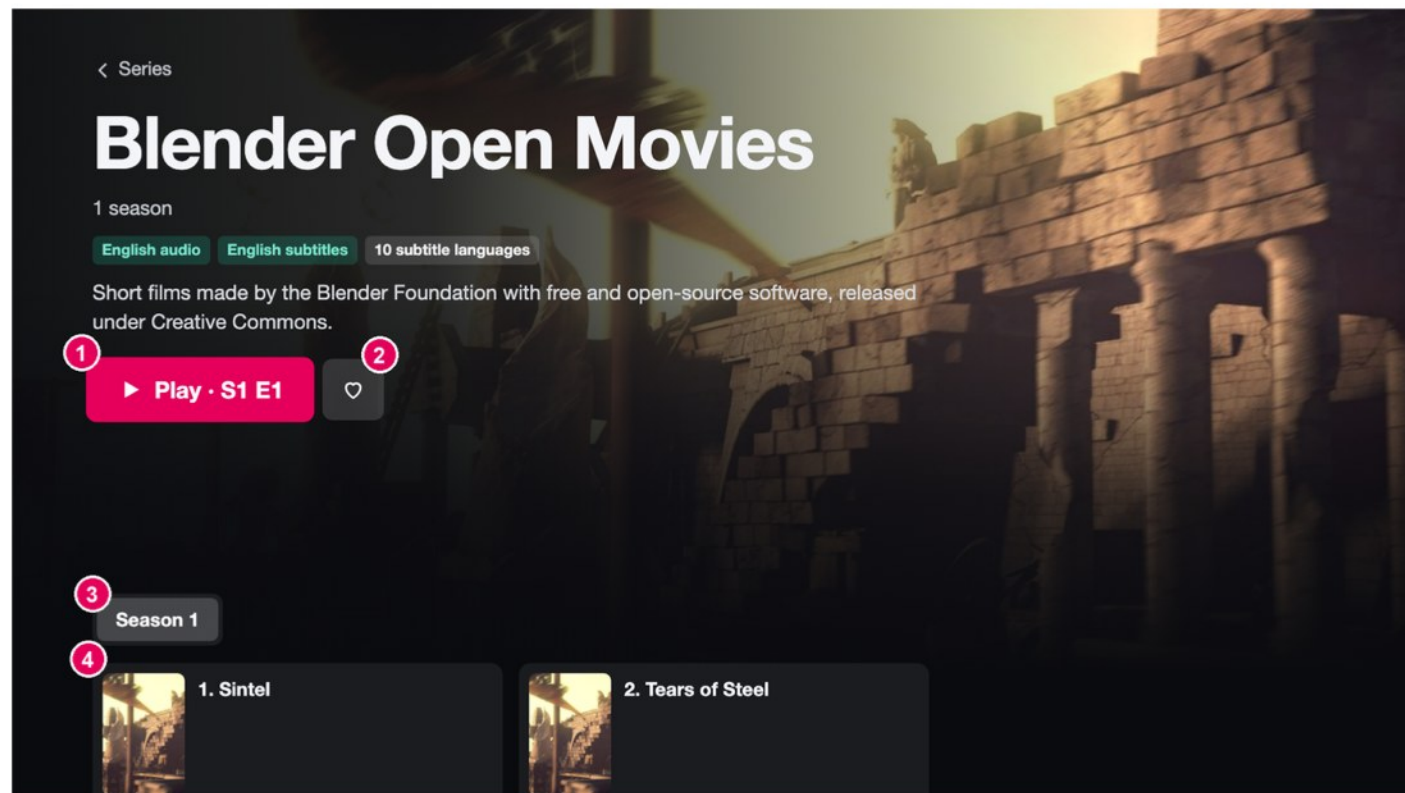

For MKV files Velvo reads the track list before playback ("Reading audio and subtitles..." is shown for a moment).

No.	Description
1	Language badges: audio and subtitle languages found inside the video file. The user's preferred languages are highlighted.
2	Play / Continue: starts or resumes playback (shows the resume time).
3	Start over: plays from the beginning.
4	Add to / remove from My List
5	More like this: titles from the same category.

6. Sub Page Description

6-3 Series detail

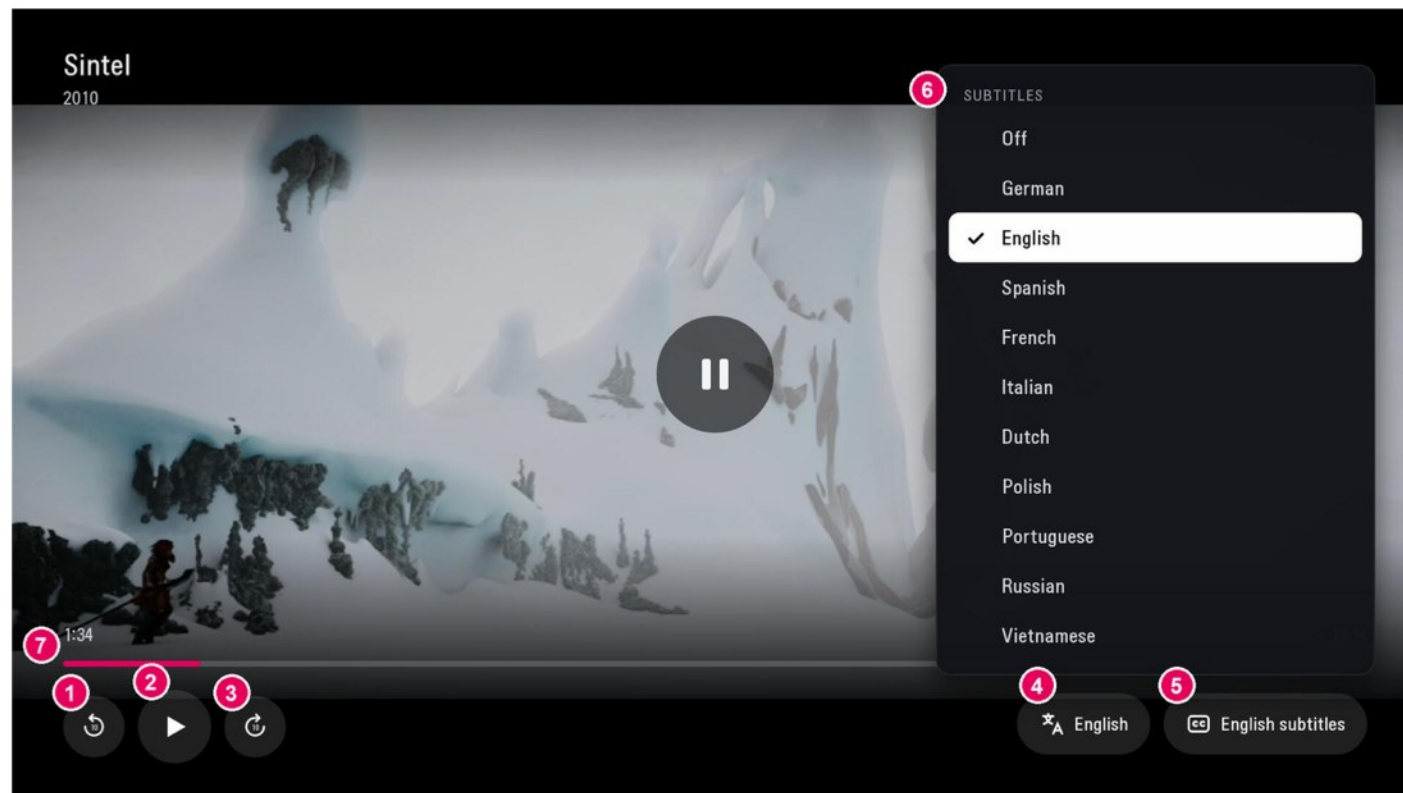

The audio and subtitle choice made in one episode is applied automatically to the next episodes of the same series.

No.	Description
1	Play: plays the next episode to watch (here S1 E1).
2	Add to / remove from My List
3	Season selector
4	Episodes: OK plays the episode; a bar shows the watched part.

6. Sub Page Description

6-4 Player

No.	Description
1	Rewind 10 s
2	Play / Pause
3	Forward 10 s
4	Audio: list of audio tracks in the video
5	Subtitles button: shows the selected subtitle language
6	Subtitle list: Off + embedded subtitle tracks (✓ = selected); below the list: Size, Color, Position (◀ ▶)
7	Seek bar with elapsed and remaining time

Screenshot taken on an LG 55SK7900 while playing "Sintel" from the demo playlist. Series episodes also show a "Next episode" button.

Keys: any key shows the control bar · OK on ▶|| pauses/resumes · ◀ ▶ seek 10 s while the bar is hidden · YELLOW = next audio track · BLUE = next subtitle track · PLAY, PAUSE, STOP, FF, REW · CH+ / CH- change channel in live TV · BACK closes an open popup first, then leaves the player.

6. Sub Page Description

6-4 Player: subtitles on screen

English subtitles (selected automatically from the preferred language)

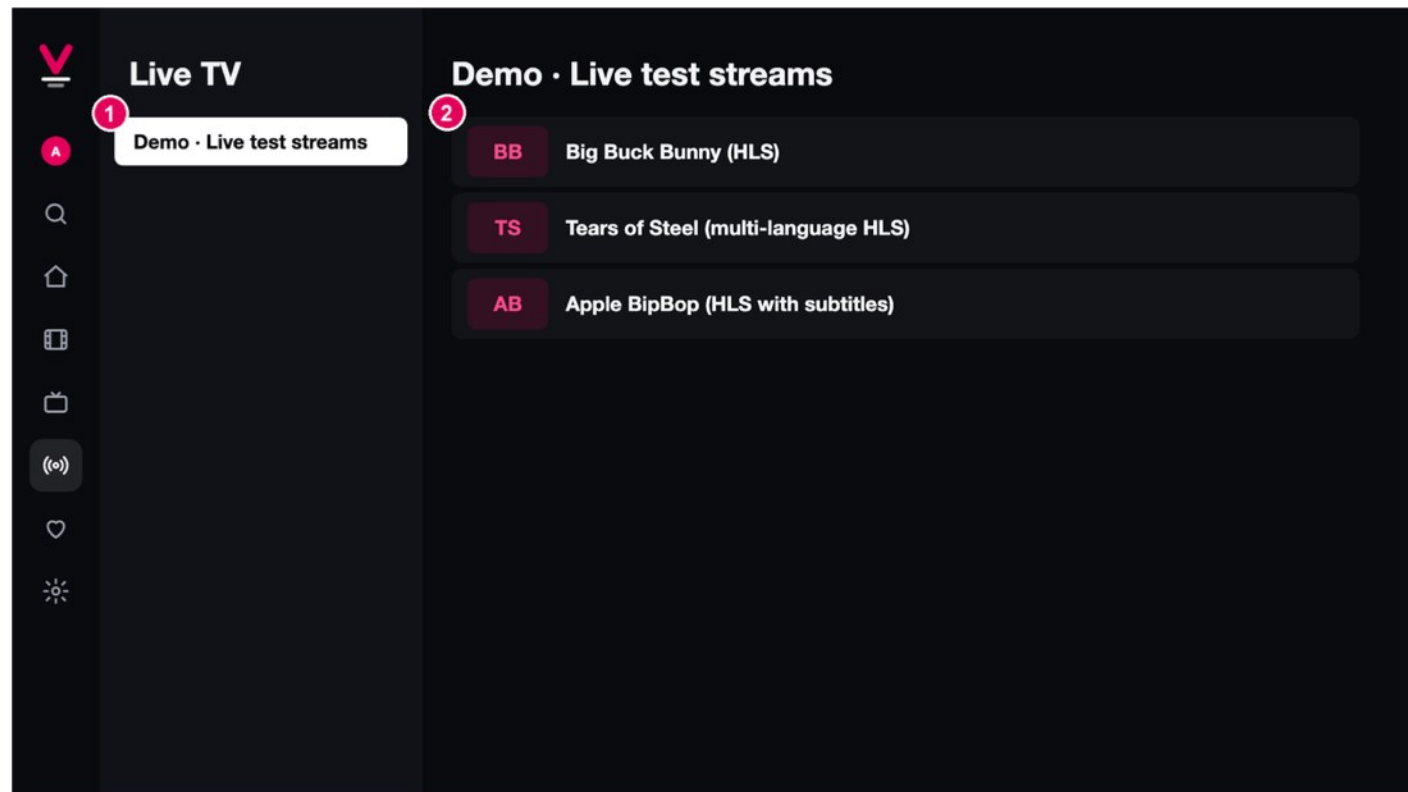

After pressing BLUE: Spanish subtitles, with an on-screen confirmation

Both screenshots were taken on an LG 55SK7900 (2018).

The subtitle and audio choice made in a series episode is applied automatically to the next episodes.

6. Sub Page Description

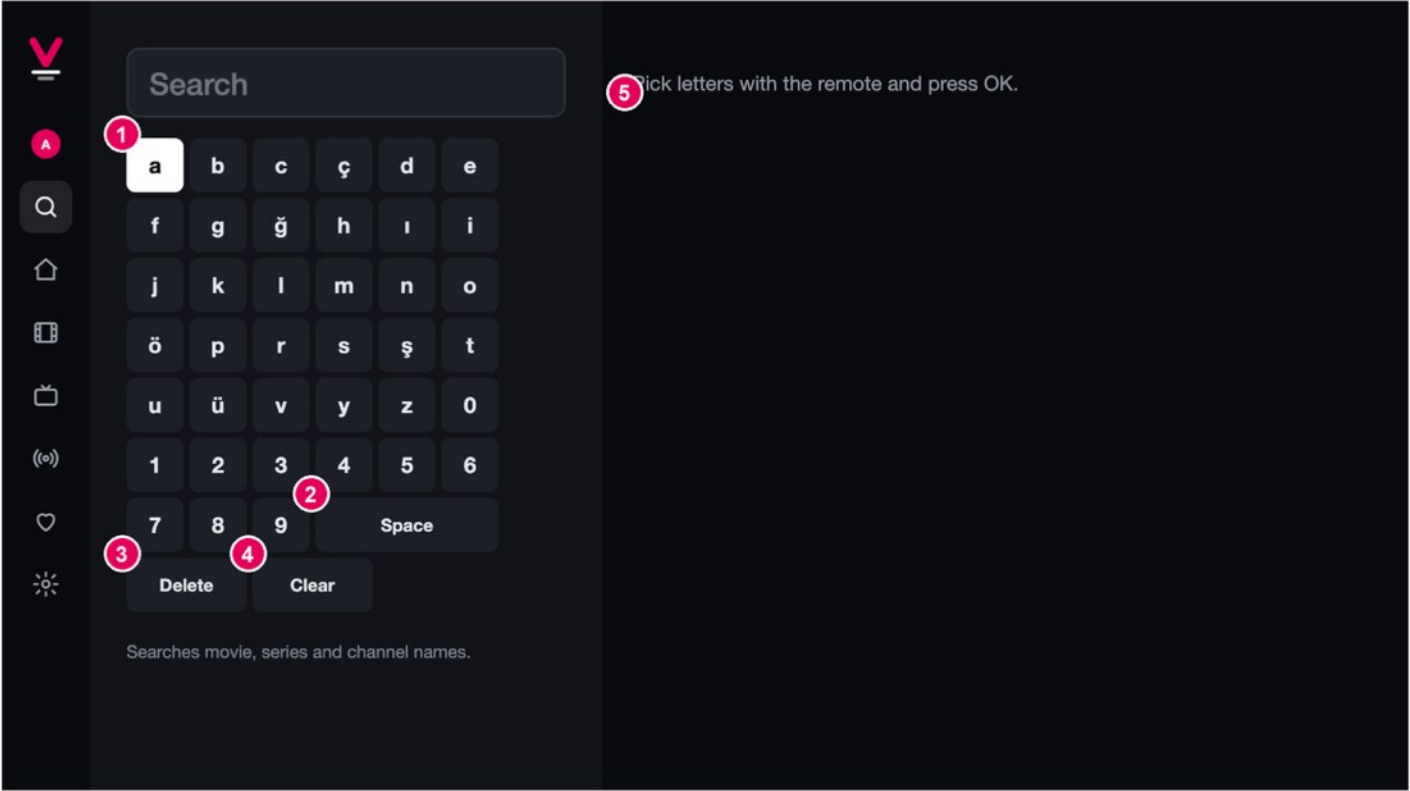

6-5 Live TV

No.	Description
1	Channel categories
2	Channels: OK plays the channel. Channels without a logo show short initials.

In the player, CH+ / CH- switch to the previous or next channel of the same category.

6. Sub Page Description

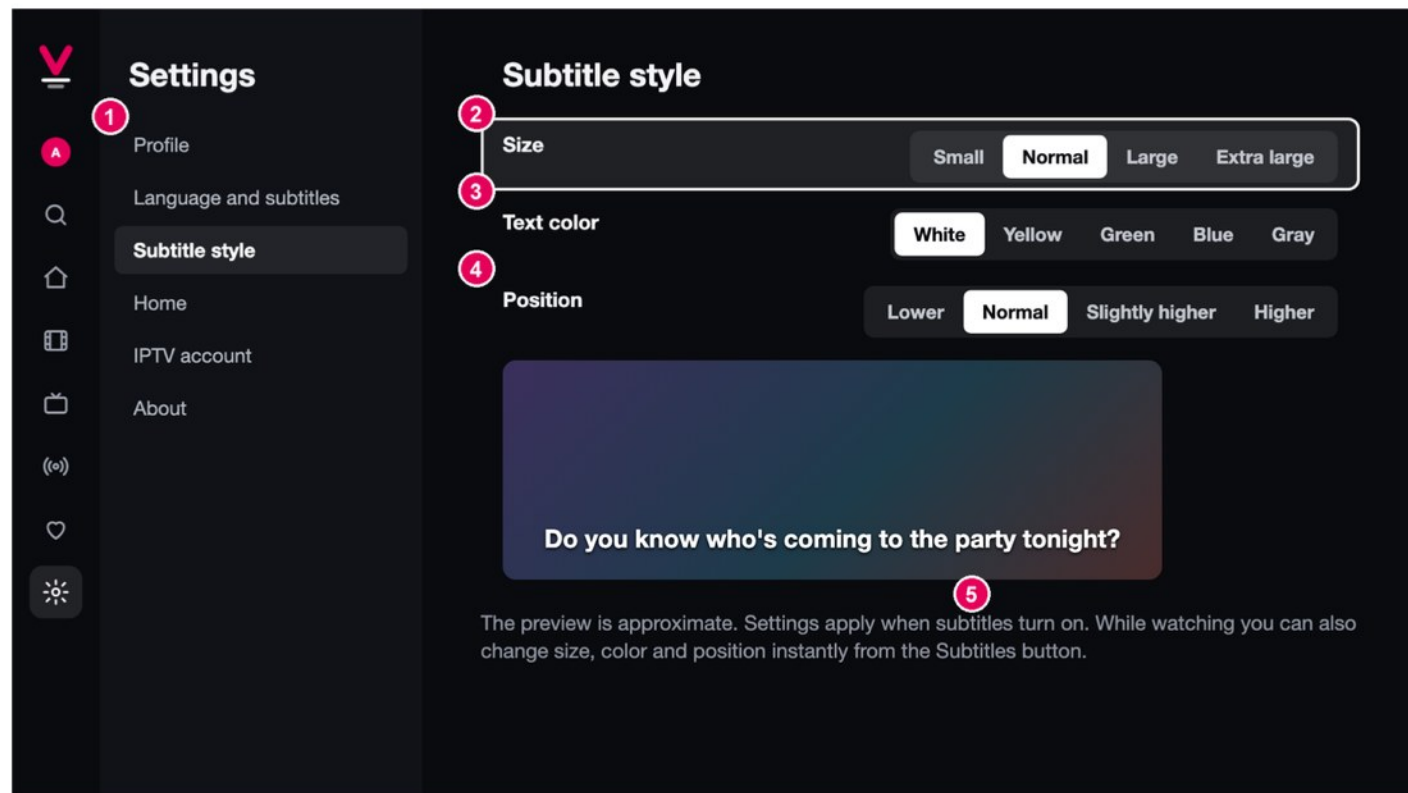

No.	Description
1	On-screen keyboard: letters and digits
2	Space
3	Delete the last character
4	Clear the search
5	Results: movies, series and live channels whose names match

OK on a result opens its detail page (or plays a channel).

6. Sub Page Description

6-7 Settings

No.	Description
1	Settings tabs: Profile · Language and subtitles (app language, preferred audio and subtitle language) · Subtitle style · Home (choose and order rows) · IPTV account (sign out) · About (version, license, source code)
2	Subtitle size
3	Subtitle color
4	Subtitle position
5	Preview of the selected style

Subtitle style can also be changed while watching, from the Subtitles button in the player.

7. Paid Content

None.

Velvo is free. It has no in-app purchases, no payment methods and no paid content, so no test credit cards or voucher codes are needed.

8. In-App Ad

None.

Velvo shows no advertisements (no banner or video ads).

Appendix: Notes for LG QA

Content

Velvo is a player only and contains no content. Please use the demo M3U playlist from section 4; it contains only openly licensed Blender Foundation films and public test streams.

Testing subtitles and audio

Movies › "Sintel (2010)" has 1 audio track and 10 embedded subtitle tracks. In the player, open Subtitles to select a language and change size, color and position. On TV models where the platform does not allow embedded subtitle selection, Velvo hides the subtitle list and shows a message instead.

Interface language

Settings › Language and subtitles › App language: Automatic (follows the TV language), Türkçe or English.

Data

All user data stays on the TV. Settings › IPTV account › Sign out removes the saved playlist.
